SKU: Predator-5x6

Categories: [Redneck Blinds](#)

Product Description

The Predator Platinum 360° 5X6 Box Blind is a perfect two-person blind suitable for compound bow hunting, crossbow hunting or gun hunting.

Updated Window Gasket and Knob System for 2025

- The new one-piece EDPM automotive rubber window gaskets featuring a slip coat allow windows to open quietly without sticking.
- In addition, new HDPE adjustable window tension knobs are included on horizontal windows. Combined with our new one-piece foam gaskets, the 2025 blinds feature even better scent and moisture control

Redneck 360° series box blinds set the standard for functionality and comfort when hunting. Combine the 46" tall vertical windows with large oversized horizontal windows and a roomy 5x6 interior, and you have plenty of room, visibility, and angles to make a perfect shot when the animal you're hunting presents itself. There is plenty of room for up to 2 adults.

Quality Built

All box blinds are made from long-lasting fiberglass with a durable gel-coat finish. The 2" roof overhang and window drip edge help keep the rain off the windows, giving you a clear view of your hunting grounds. Acoustical foam-covered upper and lower walls combined with a high-density foam floor with a high-quality marine carpet provide the ultimate sound control and insulation. A mounted gear console and shelves with gun holders help organize your blind.

Large tinted, tempered automotive-glass windows with whisper-quiet window hinges provide a clear view. High-quality automotive window gaskets and door molding help keep your scent in, the blind dry, and the pests out. The fiberglass bottom prevents rotting and varmint damage.

Blind can be mounted to Redneck's heavy-duty powder-coated steel stands or their unique trailer stand or blind sled. The blind comes completely assembled. An instructional DVD and printed instructions were included to ensure a safe setup. **Blind is made in the USA.**

Standard Features Include:

- Made from long-lasting fiberglass

- Large tinted tempered, automotive-glass windows
- Vertical and horizontal glass windows for bow or gun hunting
- Silkscreen black camo pattern on the lower half of vertical windows.
