Product Description

EGO POWER+ Compact Inflator, Tool Only - IF1600

Inflate sports balls, fill bike tires, or top off a 20-inch SUV tire* in less than a minute with the EGO POWER+ 160 PSI Compact Inflator. This compact portable air compressor features multiple functions including high pressure mode delivering up to 160 PSI, high volume mode, and deflation mode. Set and save up to four memory presets for quick access to commonly used PSI settings. The removable activity light delivers up to 300 lumens and features color temperature control. Customize your light temperature with cool daylight-like 5500K for task-oriented needs or use warmer ambient light that won't attract bugs. The activity light is magnetic and has a retractable hook for versatile mounting options. The compact inflator is an ideal air pump for inflatables like sports balls and pool floats, and it can inflate a queen size air mattress in under 1.5 minutes. Use high pressure mode to inflate and maintain ideal PSI for car tires, bike tires, sports balls, and more. High volume mode allows inflation of air mattresses, sleeping pads, pool floaties, beach gear, camping gear, and more. Deflation mode helps quickly deflate air mattresses, pool floats, and more. The cordless air compressor comes with an inflation needle, brass Presta valve adapter, narrow pinch valve nozzle, plastic inflator nozzle, and high-volume hose. Compact and lightweight, the air pump easily stores in a trunk or cargo area of your car for easy access when you're on the go. Experience Power Beyond Belief with the EGO POWER+ 160 PSI Compact Inflator. *Based on a 235/65 R17 tire,

- Delivers multiple functions including high pressure up to 160 PSI, high volume mode to fill air mattresses and swimming pools, and deflation mode
- Set and save up to four PSI settings with memory modes so you don't have to refer back to your manual when filling tires
- Removable magnetic activity light with a retractable hook delivers up to 300 lumens and color temperature control across three settings: 3000K, 4000K, and 5000K
- Use as a tire inflator to top off a 20-inch SUV tire in less than a minute (based on a 235/65 R17 tire)
- Inflator includes an inflation needle, brass Presta valve adapter, narrow pinch valve nozzle, plastic inflator nozzle, and high-volume hose
- Compact and lightweight with an integrated handle for easy portability
- Compatible with all EGO 56V ARC Lithium™ batteries (available separately)
